A BOOMERANG.

"Alleged Unconstitutional School Certificates."

Jefferson City, Mo., July 16.—Governor Dockery was asked this afternoon his opinion of the action of the Republican Judicial Convention at Joplin yesterday.

"That was a queer convention," the Governor said, "and illustrates the utter lack of candor on the part of the leaders of the Republican organization in this state. For days these Republicans have been ringing the changes on the alleged 'ring management' of the Springfield Democratic Convention. They charged that the so-called 'Statehouse ring' dominated that convention and named the judicial candidates by the 'blanket' method, a charge, by the way, positively untrue.

"Again, for months, under the leadership of a malignant press, Republicans have arraigned the Democracy for the alleged 'looting' of the School Fund by the issue of 'certificates of indebtedness,' which the Republicans declare to be unconstitutional and worthless.

"The absolute insincerity of the Republican leaders on both of these questions was shown at Joplin yesterday, the Republican nominees for the Supreme Court having been selected by the very 'blanket method,' which has been so viciously denounced by a reckless Republican press since the Democratic Convention at Springfield. Not only this action shows the Republican leaders to be both inconsistent and insincere, but, to cap the climax of inconsistency and insincerity, the Joplin Republican Convention put upon the ticket both Judges, Higbee Whyberk, who as members of the Legislature, voted for the issue of the alleged unconstitutional school certificates.

"The canting hypocrisy of the Republican leaders upon both of these questions is so obvious that further comment is unnecessary."

PATRIOTISM

The stomach is a larger factor in "life, liberty and the pursuit of happiness" than most people are aware. Patriotism can withstand hunger but not dyspepsia.

The confirmed dyspeptic "is fit for treason, stratagems and spoils." The man who goes to the front for his country with a weak stomach will be a weak soldier, and a fault finder.

A sound stomach makes for good citizenship as well as for health and happiness.

Diseases of the stomach and other organs of digestion and nutrition are promptly and permanently cured by the use of Dr. Pierce's Golden Medical Discovery. It builds up the body with sound flesh and solid muscle.

"After I received the advice which you gave me in regard to my treatment," writes Geo. Dornier, Esq., of 1015 Pulaski Street, Baltimore, Maryland, "I used your 'Golden Medical Discovery' according to directions. After using four bottles I considered myself cured, as I have not felt any symptoms since. Had tried almost all remedies that I heard of that were good for dyspepsia, but without relief. Finally, I became discouraged, and wrote to you for advice, with the above result."

The dealer who offers a substitute for the "Discovery" is only seeking to make the little more profit realized on the sale of less meritorious preparations.

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the paper covered book, or 31 stamps for the cloth bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

"Stranded in Venice."

The American Illustrated Methodist Magazine of St. Louis recently contained an illustrated article from the pen of Miss Anne D. Hinde of this city. Miss Hinde has been studying and teaching in Old Mexico for more than a year. The article referred to is headed, "Stranded in Venice." Miss Hinde and her father, Dr. H. K. Hinde, also of this city, made a tour of Europe two years ago and the trip to classic old Venice inspired her to write the article. One of the pictures illustrating the article is a Venetian gondola; another is the Bridge of Sighs, and another is one "showing Dr. Hinde and Miss Anne D. Hinde feeding the pigeons before St. Mark's."

It is a city built on piles—not a vacant lot in the place.

In view of the recent calamitous toppling to the earth of the ancient and great tower at Venice and the further fact that a noted scientist has declared that the whole city will all soon become undermined, great interest will attach to Miss Hinde's article.

She closes the article with the following splendid word-picture:

Of the Italian cities, for history, visit Rome—it is in every stone. For sculpture, visit Florence—there is beauty in every curve. For grandeur of situation, visit Naples—its bay view cannot be surpassed. For a study of the curious, visit Pisa, and see the tower that has been bending to tourists for six hundred years. For antiquities, visit Pompeii, and see the bread that was baked in the same century when Christ was born. But for a combination of the historic, the artistic, the beautiful, the curious, the antique and the romantic, visit Venice—she has them all. She is a "fairy city of the heart, rising like water columns from the sea"—a haven of sweet solitude and of sentimental dreams.

Queer Civil Service Reform.

The following is from Champ Clark's syndicate letter:

President Roosevelt has for many years been the darling of civil service Reformers, with a big R. Indeed he was at one time a civil service commissioner, but it appears from late news dispatches that a change has come over the spirit of his dream. Out at Cleveland, O., the habitat of Senator Marcus Alonzo Hanna, the federal officeholders were such "offensive partisans" that Hon. Theodore E. Burton, though a staunch Republican, declined to stand for re-election to congress because the afore-said federal officeholders, who are partisans of Senator Hanna, would not permit him to name the manager of his campaign. Two things were given out that: First, that Burton would not stand for re-election, and second, that an investigation would be made into the "offensive partisanship" of Hanna's minions. But Marcus, so it is said, made a pilgrimage to the White House. Simultaneously certain of his Cleveland henchmen made a pilgrimage to the Virginia Hot Springs, where Burton is recuperating and where, like Tom O'Shaunter's wife, he was "nursing his wrath to keep it warm." Thereupon it was announced that while Burton would not be permitted to name the county committee he would be permitted to name his own managers and would stand for re-election and that there would be no investigation of "offensive partisanship" at Cleveland.

In June, 1891, G. A. Hoffman subscribed \$1,000 to Christian University at Canton, Mo., payable in five installments of \$200 each at 6 per cent. Hoffman failed to make any payments and in 1900 suit was brought against him in Marion county for the amount and judgment was rendered for the college. The case was taken to the St. Louis Court of Appeals and a few days ago the judgment of the circuit court was affirmed, the amount now due being \$1420. Hoffman claimed in his defense that the subscription to the college was made on the impulse of the moment and without due consideration and was therefore not binding.
